Sellora seller plans: pricing, limits, overage and margins

Prices are shown in Pakistani Rupee (PKR) and US Dollar (USD), using about Rs 280 = $1. All times are Asia/Karachi (UTC+5).

How it works. A new seller picks a plan first (Basic, Grow or Advanced; Enterprise is "contact sales"). Every plan starts with a **4-day free trial**.

- **During the trial** the seller can build everything: products, CSV import, themes, settings. The store stays behind its password page. Publishing a theme, removing the password and going live all need a paid plan, paid through Sellora Pay.
- **When the 4 days end without a purchase**, the store closes completely. The storefront shows "Store unavailable", and the admin only shows the choose-a-plan page. Nothing is deleted: buying any plan reopens the store with all its data.
- **Free** is no longer offered to new stores. It is kept only as a hidden legacy plan for old stores.
- **When a seller goes over a monthly limit**, they choose one of two options in *Settings › Plan*:
- **Auto-pay overage:** they keep selling, and the extra usage is added to next month's bill. They can set an optional **spending cap**.
- **Stop at limit:** the feature pauses and they're asked to upgrade.
- **Hard limits:** Products, stores and markets can't go over. The seller has to upgrade.
- **Annual billing:** 20% off.
- **Alerts:** at 80% and 100% of each limit, by email, webhook and in-app toast.

Plans

	Free (legacy, hidden)	Basic	Grow	Advanced	Enterprise
Monthly price, Pakistani Rupee (PKR)	Rs 0	**Rs 300**	**Rs 600**	**Rs 1,000**	from Rs 4,999 (custom)
Monthly price, US Dollar (USD)	$0	$1.09	$2.15	$3.59	from $17.90
Annual price (20% off)	–	Rs 2,880 / $10.46	Rs 5,760 / $20.64	Rs 9,600 / $34.46	custom
Orders / month	20	150	400	1,000	unlimited
Products	15	500	2,000	unlimited	unlimited
Staff accounts	1	1	3	8	25
WhatsApp messages / month	5	15	30	50	500
Emails / month	300	1,500	3,000	5,000	50,000
AI credits / month (DeepSeek Flash)	30	100	200	400	5,000
File storage	1 GB	2 GB	5 GB	10 GB	100 GB
Stores / markets	1 / 1	1 / 1	1 / 2	2 / 5	10 / unlimited
Extra usage	not allowed	auto-pay or stop	auto-pay or stop	auto-pay or stop	auto-pay or stop
Sellora Pay card fee	4.5% + Rs 30	4.0% + Rs 30	3.75% + Rs 30	3.5% + Rs 30	from 3.4% + Rs 30
Sellora Pay wallet fee (JazzCash, Easypaisa)	3%	2.5%	2.5%	2.5%	2.25%
Bank transfer / COD	0%	0%	0%	0%	0%

The fixed card fee in US Dollar (USD) is $0.11.

Overage prices (every paid plan)

Item	Unit	Price, Pakistani Rupee (PKR)	Price, US Dollar (USD)	Our cost	Margin
WhatsApp message	1	Rs 8	$0.03	Rs 4.2 (Meta utility rate, Pakistan)	47%
Emails	1,000	Rs 60	$0.25	Rs 28 (Amazon SES at $0.10 per 1,000)	53%
AI credits	100	Rs 80	$0.29	Rs 42 (DeepSeek V4.1 Flash, peak, no cache: 1k in + 1k out tokens per credit)	48%
Storage	1 GB	Rs 10	$0.04	Rs 4.2 (object storage plus egress)	58%
Order	1	Rs 2	$0.01	Rs 0.10 (compute and database)	95%
Staff seat	1	Rs 99	$0.40	about Rs 0 (covered by hosting share)	~100%
Products, stores, markets	–	hard limit, upgrade instead			

Overage is billed in whole blocks. For example, 120 extra AI credits counts as 2 blocks, so Rs 160.

Worst-case margin: every limit fully used

These are the unit costs used in every row below:

Cost item	Unit cost
Order	Rs 0.10
WhatsApp message	Rs 4.2
Email	Rs 0.028
AI credit	Rs 0.42 (worst case: peak hours, no cache hits)
Storage	Rs 4.2 / GB

The hosting and support share per store is Rs 20 on Free, Rs 30 on Basic, Rs 35 on Grow and Rs 50 on Advanced.

Plan	Orders	WhatsApp	Email	AI	Storage	Hosting	Total cost	Price	Subscription margin
Free	2	21	8.4	12.6	4.2	20	**Rs 68**	Rs 0	acquisition cost
Basic	15	63	42	42	8.4	30	**Rs 170**	Rs 300	**Rs 130 (43%)**
Grow	40	126	84	84	21	35	**Rs 391**	Rs 600	**Rs 209 (35%)**
Advanced	100	210	140	168	42	50	**Rs 710**	Rs 1,000	**Rs 290 (29%)**

WhatsApp is the biggest cost: about one-third of the worst-case cost on each plan. That's why the WhatsApp limits are small and its overage price is set about 1.9× our cost.

Sellora Pay fee: the main revenue

This estimate assumes an average order of Rs 3,000, paid 30% by card, 20% by wallet and 50% by COD or bank transfer. Our costs are:

- **Card processing:** about 2.9% + Rs 30 = Rs 117 per order.
- **Wallet processing:** about 1.5% = Rs 45 per order.

Plan (orders at limit)	Card margin / order	Wallet margin / order	Fee profit / month	Total monthly profit at full use
Basic (150)	Rs 33	Rs 30	45 × 33 + 30 × 30 = **Rs 2,385**	Rs 155 + 2,385 = **Rs 2,540**
Grow (400)	Rs 25.5	Rs 30	120 × 25.5 + 80 × 30 = **Rs 5,460**	Rs 251 + 5,460 = **Rs 5,711**
Advanced (1,000)	Rs 18	Rs 30	300 × 18 + 200 × 30 = **Rs 11,400**	Rs 373 + 11,400 = **Rs 11,773**

Card fees are above processing cost on every plan. The per-order card margin gets thinner on higher plans, the same trade-off Shopify makes, but wallet volume makes up for it.

Is Advanced (Rs 1,000) enough for a normal seller?

A typical small or medium Pakistani seller looks like this:

- 200 to 600 orders a month
- under 1,000 products
- 2 to 4 staff
- 2,000 to 4,000 emails a month, mostly order and shipping emails
- about 100 to 300 AI credits a month for product copy
- a few GB of photos

That fits well inside Advanced. The tightest limit is WhatsApp at 50 messages. Most sellers use the free WhatsApp catalogue and customer-started chats, which cost us nothing. Paid sends are only for OTP, reminders and broadcasts. If a seller does more broadcasts, each extra message is Rs 8, or they can set a cap.

Example bills (auto-pay overage)

Seller	Usage	Bill
Basic, busy month	200 orders (50 over, Rs 100) and 25 WhatsApp messages (10 over, Rs 80)	Rs 300 + 100 + 80 = **Rs 480**
Grow, AI-heavy	400 AI credits (200 over, 2 blocks, Rs 160)	Rs 600 + 160 = **Rs 760**
Advanced with a Rs 300 spending cap	120 WhatsApp messages (70 over, Rs 560), capped	Rs 1,000 + 560 − 260 cap credit = **Rs 1,300**
Basic, “stop at limit”	the 16th WhatsApp send is blocked with an upgrade prompt	**Rs 300**
Trial ends without a plan	moved to Free	**Rs 0**

Billing mechanics (implemented)

- **Upgrades** take effect now, prorated for the rest of the period.
- **Downgrades** take effect at period end. They're blocked if the store's products, staff or markets don't fit the smaller plan.
- **Monthly billing job** (`billing-run`, also `POST /api/admin/billing/run`) builds the bill: overage lines, a spending-cap credit, then the next plan fee.
- **Payment:** charged to the Sellora Pay wallet first, then the card on file. If both fail, the bill is marked past due.
- **Platform admin:** prices, limits and fees can be edited at `/api/admin/plans` and on the *Platform admin · Plans* page.

AI costs with DeepSeek (updated 29 Oct 2026, Asia/Karachi, UTC+5)

DeepSeek is **not free**. It is pay-as-you-go with no free tier; you top up a balance (any promotional "granted balance" is used first). It is, however, one of the cheapest capable models. Official prices, USD per 1M tokens (api-docs.deepseek.com/quick_start/pricing), peak / off-peak:

Model (`DEEPSEEK_MODEL`)	Input, cache hit	Input, cache miss	Output
`deepseek-flash` (V4.1 Flash, **Sellora default**)	$0.006 / $0.003	$0.30 / $0.15	$1.20 / $0.60
`deepseek-v4-pro`	$0.044 / $0.022	$1.32 / $0.66	$3.96 / $1.98

Off-peak (half price) is any time outside 06:00–09:00 and 11:00–15:00 Asia/Karachi (UTC+5), Monday–Friday; weekends are off-peak all day.

Action	Credits	Tokens (approx.)	Our cost, peak	Our cost, off-peak
1 AI credit (description, reply, chat answer…)	1	1k in + 1k out	Rs 0.42 ($0.0015)	Rs 0.21
Full website build (theme, 4+ products, pages, policies, menus, blog, FAQ)	25	6k in + 20k out	**≈ Rs 7 ($0.026)**	**≈ Rs 3.5**
Edit by command	1 (0 when matched by rules)	0.5k + 0.3k	Rs 0.15	Rs 0.08
Description in EN + UR + AR	3	3 × 1.5k	Rs 1.3	Rs 0.6
SEO keyword research / AEO FAQ / GEO / calendar	2 each	1–3k	Rs 0.4–0.8	Rs 0.2–0.4

A 25-credit build is worth Rs 20 at the overage price (25 × Rs 0.80) against a cost of about Rs 7, so we stay above cost even at peak. Changes from the previous plan: AI credits Free 20→30, Grow 250→200, Advanced 500→400, and AI overage Rs 40→80 ($0.15→$0.29) per 100 credits. Worst-case margins remain positive on every paid plan (Basic 43%, Grow 35%, Advanced 29%); Sellora Pay fees stay the main profit.
